

## **Water Conservation (8-2023)**

The Utah legislature passed a law requiring that HOAs adopt a rule relating to water conservation. The new law does not provide any particular language, so the MRR BOD is recommending the following:

In accordance with Section 57-8a-218(16)(a) of the Utah Code, the Board of Directors recognizes the critical importance of conserving water whenever reasonably possible and, to that end, the Board of Directors supports water-efficient landscaping within MRR as approved in advance by the [the architectural committee], along with low water use on landscaping especially lawns during drought conditions.
